Investment Objective

A Fund seeking current income, liquidity and the maintenance of a stable \$1.00 net asset value per share through investments in high-quality, short-term obligations issued by the U.S. Government, its agencies or instrumentalities.

Investing Style

American Beacon Advisors, Inc. utilizes a top-down approach, analyzing macroeconomic data to anticipate economic momentum shifts, inflationary trends, the shape of the yield curve and Federal Reserve policy. American Beacon Advisors, Inc. strives to increase returns by actively managing the duration and quality of the portfolio, consistent with historical relationships among economic growth, inflation and the direction of interest rates.

The Fund invests in high-quality, U.S. dollar-denominated, short-term obligations with minimal credit risk, as determined by American Beacon Advisors, Inc. The Fund invests exclusively in obligations issued or guaranteed by the U.S. Government, its agencies, or instrumentalities, as well as in repurchase agreements collateralized by such obligations. The dollar-weighted average maturity of the Fund will not exceed 90 days.

* Annualized. Yield is a more accurate reflection of the Fund's current earnings than total return.

The 7-day yields refer to the income generated by an investment in the Fund over a 7-day period. This income is then annualized. The 7-day effective yield is calculated similarly, but the income earned is assumed to have been reinvested. The effective yield will be slightly higher than the current yield because of the compounding effect of this assumed reinvestment.

Performance shown is historical and may not be indicative of future returns. Investment returns will vary, and shares may be worth more or less at redemption than at original purchase. Performance shown is as of date indicated, and current performance may be lower or higher than the performance data quoted. To obtain performance as of the most recent month end, please visit www.americanbeaconfunds.com or call 1-800-967-9009.

Performance shown prior to the 12/1/01 inception of the American Beacon U.S. Government Money Market Select Fund ("Select Fund") is that of a class of the American Beacon U.S. Government Money Market Fund ("Beacon Fund") that is no longer in operation. The returns have not been adjusted for any difference between the fees and expenses of the Select Fund and the historical fees and expenses of the Beacon Fund. Because the Beacon Fund had moderately higher expenses, its performance was worse than the Select Fund would have realized during the same period. A portion of the fees charged to the Select Fund was waived through 2006 and from April 2008. Performance prior to waiving fees was lower than the actual returns shown for periods when waivers were in effect.
